TO WHOM IT MAY CONCERN

RE: Workz4U Conference Management Limited

Donna and her business Workz4U were a fantastic conference management firm and vital to the success of ANZICS2020 Intensive Care Conference held in Napier, March 2020.

We had previously run this conference in 2010 without event manager and so having Workz4U onboard considerably decreased the workload and stress this time around. They were recommended by the previous NZ ANZICS convener and proved to be efficient, flexible, available and competent.

Donna went out of her way to make the event a success. All aspects of the process over 8 months of organization went smoothly and her skills particularly came through over the actual event, which was seamless.

Our conference had a sustainability theme and Donna embraced this. There is real scope for her to credential and market her company as a sustainable conference event manager. Medical delegates are certainly expecting this now with conferences and events.

Thankyou Donna for your hard work

Yours sincerely

Dr Louise Trent
